SUPERFUND BRANCH

MARK WHITE
GOVERNOR

OFFICE OF THE GOVERNOR

December 20, 1984

Mr. Samuel L. Nott, Chief
Superfund Branch
U.S. Environmental Protection Agency
1201 Elm Street
Dallas, Texas 75270

Dear Mr. Nott:

The Governor's Office has received your information on the study of the North Calvacade, South Calvacade, and Koppers County sites, titled "EPA Lead Superfund Sites". The State Environmental Impact Statement number assigned to this project is TX-84-11-10-0022-50.

The comments received are favorable. The Texas Air Control Board comments point out the role of that agency in permitting construction of facilities which may emit air contaminants. Cleanup may involve construction and/or modification, thus necessitating Air Control Board review.

The Governor's Office appreciates the opportunity to review your application for more effective state coordination. If we may be of further assistance, please contact this office.

Sincerely,

Hershel S. Meriwether II
Associate Deputy Assistant for Programs
